

Specifics of the Planets		
Mercury		
Planet with Maximum Number of Satellites		Mercury
Nearest Planet to Sun		Mercury
Smallest Planet		Mercury
Venus		
Brightest Planet		Venus
Evening Star		Venus
Hottest Planet		Venus
Morning Star		Venus
Nearest Planet to Earth		Venus
Slowest Rotation in Solar System		Venus
Earth's Twin		Venus
Earth		
Blue Planet		Earth
Densest Planet		Earth
Mars		
Red Planet		Mars
Jupiter		
Biggest Planet		Jupiter
Fastest Rotation in Solar System		Jupiter
Biggest Satellite		Ganymede (Jupiter)
Saturn		
Planet with Maximum Number of Satellites		Saturn
Uranus		
Green Planet		Uranus
Neptune		
Coldest Planet		Neptune
Farthest Planet from Sun		Neptune
Slowest Revolution in Solar System		Neptune
Deimos		
Smallest Natural Satellite		Deimos
Proxima Centaur		
Closest Star of Solar System		Proxima Centauri
Sirius		
Brightest Star Outside Solar System		Sirius (Dog Star)
Titan		
Only Satellite with an Atmosphere Like Earth		Titan
